

IIPSC Nomination Form for Listing of Plant Species				Date Proposed:
			<i>Law Under Which You Propose to List the Species (check one)</i>	Date Presented:
Nominator Name:			<input type="checkbox"/> Exotic Weed Act (525ILCS 10/)	Reviewed By:
Nominator Email:			<input type="checkbox"/> Illinois Noxious Weed Law (505ILCS 100/)	
Nominator Address;			<input type="checkbox"/> Illinois Seed Law (506 ILCS 110/)	
Nominator Phone:				
Species Common Name(s):				
Species Scientific Name (if proposal is a complex of species, please list each separate species):				-

Section 1: Distribution		<p><i>(Circle one or more options that best describe distribution)</i></p>	Source Citation number below for all section items (see table at bottom of form)
What is the Current Known Distribution in Illinois? (Distribution maps may be included within 'supporting documents')		Distribution by County: Present in > 50 counties, 10 - 50 counties, < 10 counties; Distribution by Region: southern, northern, eastern, western; not known in the state, unknown distribution	
What is the Current Known Distribution in United States? (Distribution maps may be included within 'supporting documents')		Provide Description:	
What is the Ecological Range of the Species (natural community types it can grow in)?		List Community Types or Conditions this Plant can Grow:	
What is the rate of spread with no management?		Increases rapidly (doubling in < 10 years), Increases but less rapidly, Stable, Declining, Unknown	
Has this species been regulated or listed as invasive by other states, municipalities, organizations or agencies?		List Entity and Type of Regulation or Listing:	
		<i>(Circle one or more options)</i>	
Section 2: Ability to Establish and Spread		Type of Plant: Annual, Biennial, Monocarpic Perennial, Herbaceous Perennial, Vine, Shrub, Tree	
		Hybridization Potential: know to hybridize with congeners, not known to hybridize	

		Dispersal Potential: Ornamental, Forage Erosion Control, Medicine/Food, Bird, Animal, Vehicles/Humans, Wind, Water, Other:	
		Ability to go Undetected: High, Medium, Low; Please provide an explanation:	
Section 3: Ecological Impacts		<i>(Check all impacts that apply)</i>	
	<input type="checkbox"/>	Reduces native species richness or diversity (outcompetes native species)	
	<input type="checkbox"/>	Alters ecosystem/community structure (e.g alters canopy, subcanopy, herbaceous structure or soil characteristics)	
	<input type="checkbox"/>	Alters ecosystem/community functions and processes (e.g fire intensity, hydrology, erosion potential, wildlife forage)	
	<input type="checkbox"/>	Has allelopathic properties	
	<input type="checkbox"/>	Other:	
Section 4: Known or Potential Socio-Economic Impacts in Illinois			
<i>Agricultural Impacts:</i>	<input type="checkbox"/>	Rapidly colonizes ditches, grassy swales and riparian zones	
	<input type="checkbox"/>	Nuisance in crop fields	
	<input type="checkbox"/>	Sold for beneficial agricultural uses	
	<input type="checkbox"/>	Sold for forage	
	<input type="checkbox"/>	Other:	

<i>Horticultural Considerations:</i>		<input type="checkbox"/>	Sold for ornamental purposes	
		<input type="checkbox"/>	Has widespread economic value	
		<input type="checkbox"/>	Has widespread cultural value	
		<input type="checkbox"/>	Nuisance in lawns, turf areas and gardens	
		<input type="checkbox"/>	Has commercially available varieties that have been proven to be sterile	
		<input type="checkbox"/>	Other:	
<i>Recreational / Property Impacts:</i>		<input type="checkbox"/>	Inhibits water vehicle use in waterbodies	
		<input type="checkbox"/>	Inhibits hiking	
		<input type="checkbox"/>	Inhibits hunting and fishing	
		<input type="checkbox"/>	Inhibits swimming	
		<input type="checkbox"/>	Limits aesthetic of natural vistas and viewsheds	
		<input type="checkbox"/>	Reduces property value	
		<input type="checkbox"/>	Other:	
<i>Safety Impacts:</i>		<input type="checkbox"/>	Has the potential to negatively impact human health	
		<input type="checkbox"/>	Blocks views along transportation rights-of-way	
		<input type="checkbox"/>	Increases fire intensity, increasing risk of wildfire or escape	
		<input type="checkbox"/>	Other:	
<i>Other Impacts:</i>		<input type="checkbox"/>	Sold for medicinal purposes	

Section 5: Control and Management		<i>(Circle one)</i>		
<i>Has eradication been successfully achieved anywhere for this species?</i>		No Yes, list location(s):		No
<i>Are there effective control measures?</i>		No Yes: Chemical, Biological, Cultural (e.g., fire), Mechanical		
<i>What are the costs of control?</i>		Please describe in terms of cost per acre if possible:
